

Preventivacy Leaks

# INFORMATION SECURITY FIVE-PIECE SET

Precise and accurate

Stable performance

Easy to operate

## OUR PRIVACY

## IT COULD BE STOLEN AT ANY TIME

Prevent problems before they happen, and reduce the risk of privacy being compromised

Be tracked

Photographed by a pinhole

Being listened to  
by the wrong people

## WIRELESS SIGNAL DETECTOR FT30W

Used to detect new "invisible" tapping devices that can detect eavesdropping devices such as Bluetooth and WI-FI can detect and analyze nearby radio signals primary antenna + secondary antenna

# CAPTURE COVERT SIGNAL

## SUSPICIOUS DEVICE FOUND

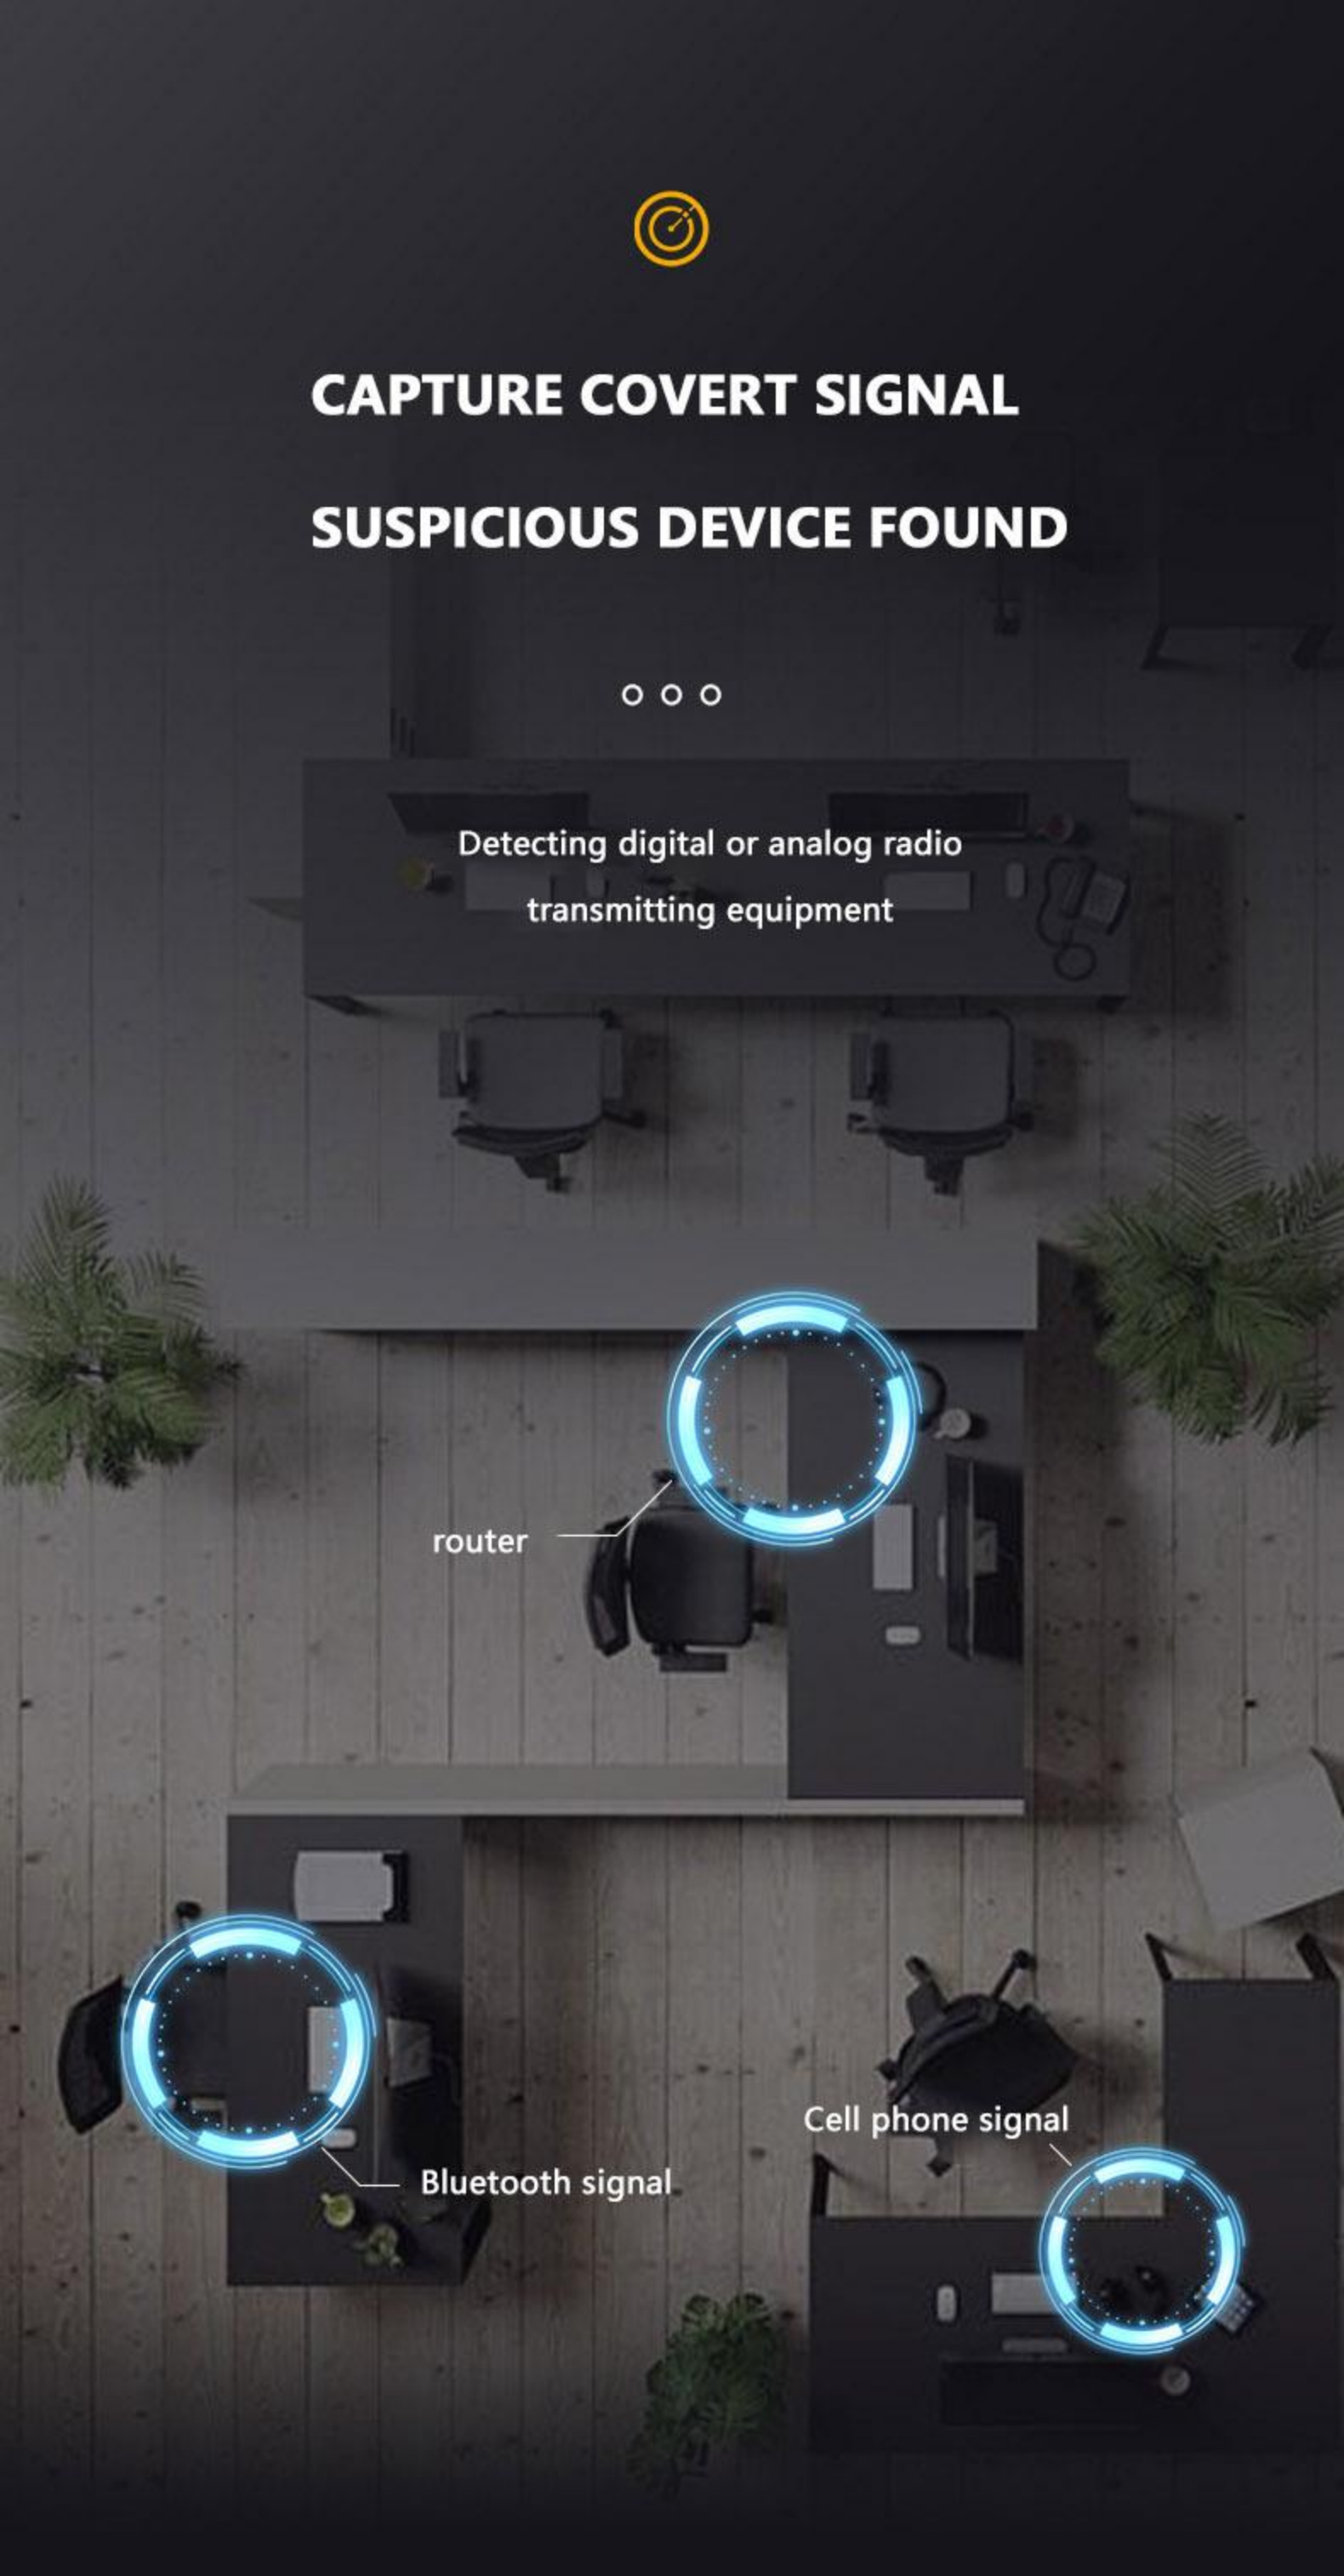

o o o

Detecting digital or analog radio  
transmitting equipment

router

Bluetooth signal

Cell phone signal

## BY INDICATOR COLOR

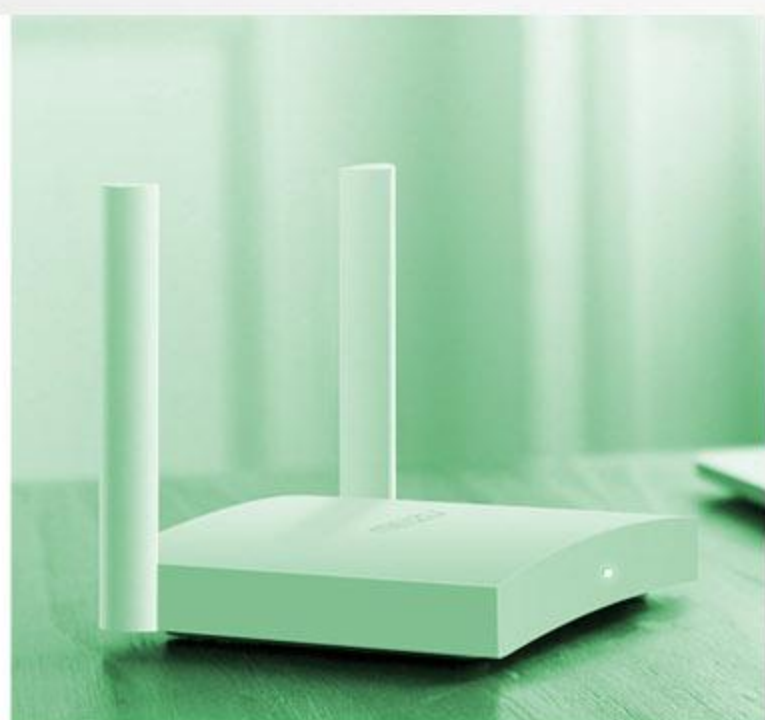

### SOURCE DETERMINATION

Detect digital or analog wireless  
Electric transmitter weapon

SIGNAL  

---

WIFI

SIGNAL  

---

Bluetooth

SIGNAL  

---

GSM900/1800

SIGNAL  

---

DECT

# APPEARANCE AND FUNCTION INTRODUCTION

## Product name

Wireless signal detector

## Product model

FT30W

## Product size

220X70X16 MM

## Power supply type

2 AAA batteries (2XLR03)

## Main antenna band

50MHZ-12GHZ

## Auxiliary antenna band

2.44GHZ/5.39GHZ

## Panel display

Active antenna, low power, mode, recognition, attenuator, secondary demodulation

## GUARANTEE PRIVACY AND SECURITY

High performance mobile phone security card detection device FW5

CDMA equipment	GSM spy phone	GSM equipment
Bluetooth device	GPS	3G wireless camera
4G wireless camera	Bluetooth and WIFI between die phones and other devices	

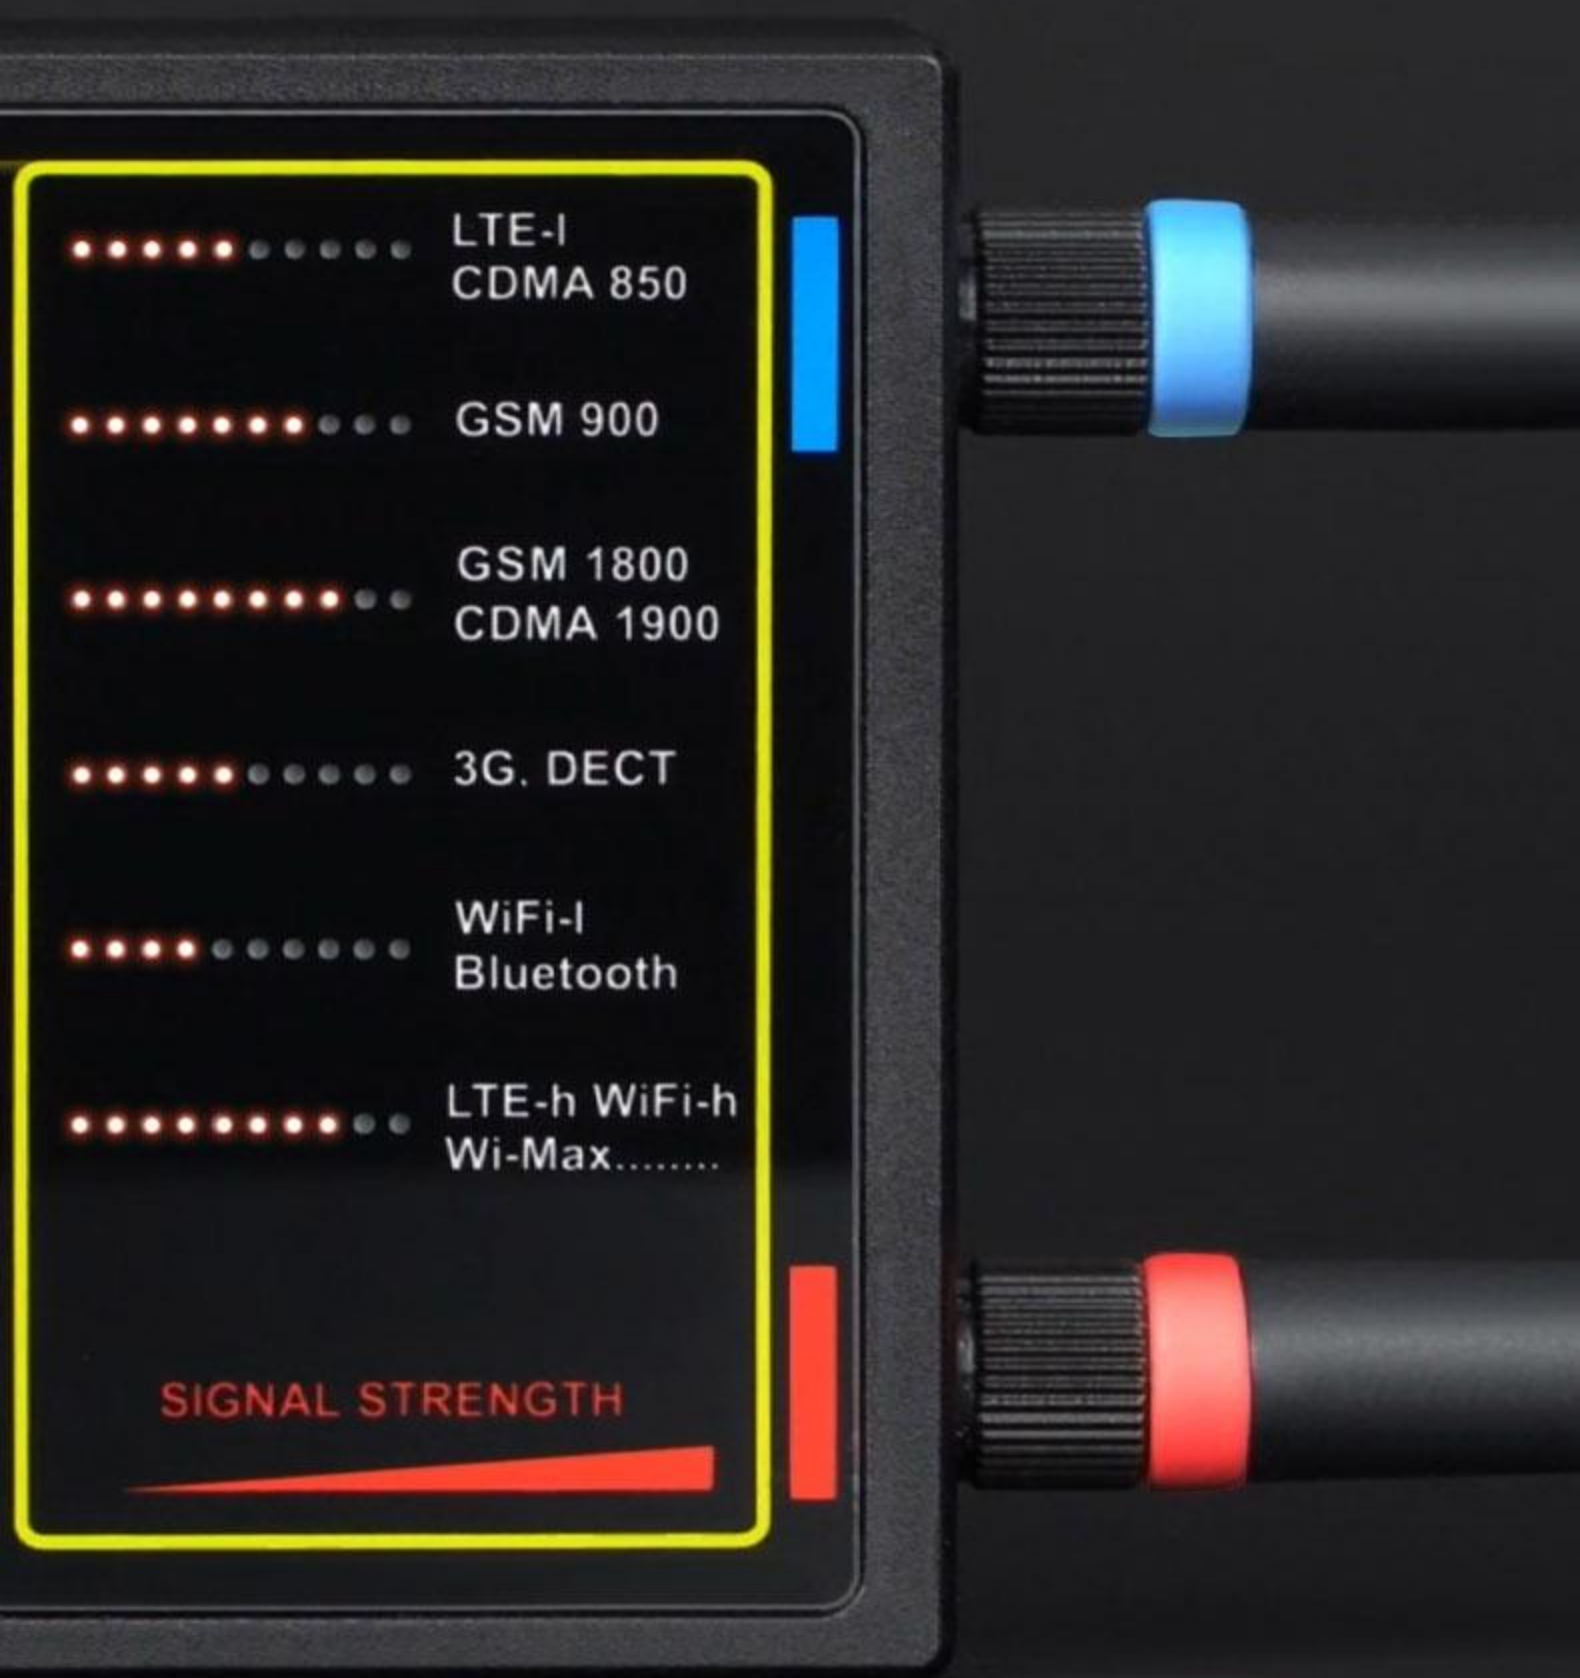

# THROUGH THE LIGHT INTENSITY SEARCH EQUIPMENT

Detect digital or analog wireless

Electric transmitter weapon

# APPEARANCE AND FUNCTION INTRODUCTION

## Product name

Wireless signal detector

## Product model

FW5

## Product size

120X70X16 MM

## Power supply type

2 AAA batteries

## Main antenna band

CDMA  
 GSM  
 GSM(DCS)  
 WCDMA,3G,GSM(PCS),DECT  
 Bluetooth, Wifil  
 Wi-Max

824-849MHZ  
 880-920MHZ  
 1710-1790MHZ  
 1920-2000MHZ  
 2400-2480MHZ  
 3000-12000MHZ

# INTERCEPT VISUAL FIELD REVERSE POSITIONING

Wireless Video Search Restorer SP10

# PRIVATE SPACE IS UNDER THREAT

Real-time scanning and decoding of wireless device signals to achieve WYSIWYG

Same frequency synchronization

Air conditioning camera imaging content

# APPEARANCE AND FUNCTION INTRODUCTION

**Product name**

All-band wireless video finder

**Product model**

SP10

**Band range**

900MHZ-6GHZ

**Power supply type**

2 AAA batteries

**FK15**

**DIGITAL PLL SIGNAL**

**INTELLIGENT SCREENING PRECISION LOCATOR**

GPS locator detection

# DETECT GPS LOCATOR EASY PRIVACY SECURITY

Has automatic detection function when the car has GPS locator  
The detector will signal when we're tracking the device

Detecting GPS location

## APPEARANCE AND FUNCTION INTRODUCTION

**Product name** All-band wireless video finder

**Detection of digital transmission equipment  
frequency range (upload band)**

GSM:880-920MHZ

GSM (DCS):1710-1790

Bluetooth

WIFI:2400-2480MHZ

**Detection of analog transmission equipment  
frequency range (upload band)**

Full frequency radio eavesdropping signal: 40MHZ-12GHZ

Wireless pinhole transmission frequency: 900 MHZ / 1.2 GHZ / 1.5 GHZ / 5.8 GHZ

Out-of-band attenuation: 10-45DB

Detection distance: 100 to 40CM(precise location of signal source)

Power supply: Built-in lithium battery 800MAH

Dimensions (excluding antenna):108\*65\*18MM

Weight :260G

**FG10G**

## **HIDE DEVICE OPTICAL SCANNER**
